

Print a picture of the Sun on your special day?
Go to the print station.

This activity works best when the image layer on helioviewer.org is set to

- SDO
- AIA
- 171

Open the 'data source' tab on helioviewer's upper left corner.
Adjust the layer. You will get a yellow image.

Explore

the Sun on your
special day

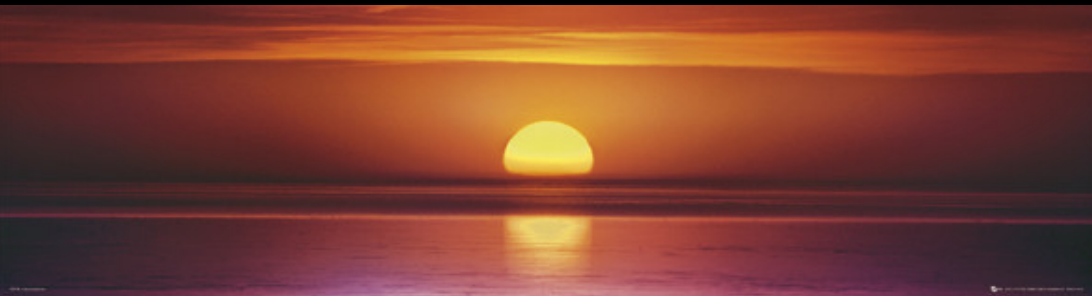

Try this

Go to the website helioviewer.org

Open the 'data source' tab
on helioviewer's upper left corner.

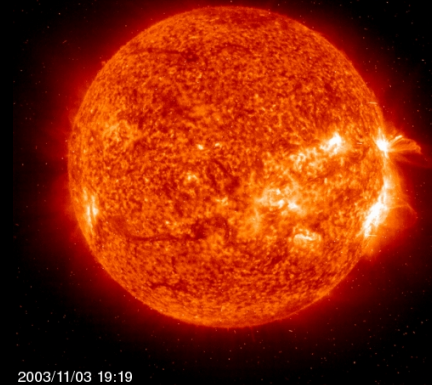

Enter the date of a special day.
How active was the Sun?
